

**Dear Mayor,
dear Mister Ambassador,
dear Madam, dear Sir,**

**We refer to the atrocities and crimes against dogs in Haskovo-Bulgaria.
What has happened in the last few days are incredibly cruel and inhumane.**

It is shameful for a country with an Animal Welfare Law , which is not applied.

The facts:

Countless Dogs were locked up as garbage, in a shed with no windows and they had to starve miserably !

In the area of the shed were found decomposing corpses of dogs.

It is known that the shed is located on a playground !!

In addition we have got the incredible information, that puppies were consumed alive to lions.

Unfortunately there is no doubt about the truth of this horrible information.

There are seriously witnesses and evidence pictures.

It has been reported, that the responsible person for this crime is the mayor of Haskovo , Mr. Georgi Ivanov.

He is acting against the Bulgarian welfare law and calls it cleansing action.

He argues that bastards have no right to live.

In collaboration with other animal-welfare groups , we will ensure, that these atrocities against defenseless dogs, initiated by Mr.Georgi Ivanov, the mayor of Haskovo, will be publicized in other countries, where animals are respected and not brutally persecuted.

There should not be any reason to treat animals in this barbaric way !!

We demand that these atrocities will have consequences.

Sincerely,

XXX
